

RX PRESCRIPTION

Name: Fatema Abdulaheed Ali Ahmed Alawadhi

Age: 36

Gender: Female

DOB: 04/06/1990

Date: 11/07/2026

File Number: 51128

1. Minoxidil 1.25 mg (Compounded Capsules)

Formulation :

- Minoxidil 1.25 mg per capsule
- Vegetable capsules
- Gluten-free
- Lactose-free
- Free from artificial colors, preservatives, and unnecessary excipients (clean formulation)

Dosage: Take 1 capsule (1.25 mg) orally at bedtime for the first 2 weeks. If well tolerated (no significant side effects such as excessive facial/body hair growth, edema, dizziness, palpitations, or hypotension), the dose may be increased to 2 capsules (2.5 mg) at bedtime.

Duration: 4 months

Quantity to dispense: 240 capsules (allows dose escalation to 2 capsules nightly if clinically indicated without requiring a new prescription).

Clinical indication:

- Support hair regrowth and improve hair density.
- To be used alongside optimization of overall nutritional and hormonal status.
- Chronic diffuse hair shedding.

2. Micronized Progesterone 100 mg

Dosage: Take 1 capsule (100 mg) orally at bedtime, continuously.

Duration: 4 months (reassess thereafter).

Clinical indication:

- Support low progesterone status suggested by the DUTCH hormone profile.
- Improve sleep quality and reduce nocturnal awakenings.
- Provide neurosteroid support through allopregnanolone production, helping with stress resilience and chronic pain modulation.
- Support hormonal balance in the setting of uterine fibroids and chronic inflammatory disease.

Pharmacological and safety review only.
