

RX PRESCRIPTION

Name: Hala Falah Naser Alwasmi
Age: 48 **Gender:** Female **DOB:** 05/12/1977
Bioidentical Hormone Therapy (BHRT)

Date: 28/07/2026
File Number: 51294

Diagnosis: N95.1 Menopausal and Perimenopausal Disorder
Duration: 3 months

1. Morning Formula Testosterone (Transdermal)
Compound
Testosterone (micronized, bioidentical) – 0.75 mg/mL
Pentruvan® base q.s.p.

Instructions: Apply 1mL every morning to clean, dry, hairless skin (innerthigh, lower abdomen, or behind the knee). Rotate application sites daily. Avoid washing the area for at least 2 hours after application.
Dispense: 3-month supply.

2. Morning Formula Estradiol (Transdermal)
Compound
Estradiol (micronized, bioidentical) – 1.5 mg/mL
Pentruvan® base q.s.p.

Instructions: Apply 1mL every morning to clean, dry, hairless skin (innerthigh, lower abdomen, or behind the knee). Rotate application sites daily. Avoid washing the area for at least 2 hours after application.
Purpose: Supports healthy estrogen levels to improve joint health, bone density, cardiovascular health, cognitive function, skin integrity, and overall menopausal well-being.
Dispense: 3-month supply.

3. Micronized Progesterone (Oral) Micronized Progesterone 100 mg capsules

Instructions: Take 1 capsule orally at bedtime, starting on Day 14 of the menstrual cycle and continue through Day 28. If menstrual bleeding occurs before Day 28, discontinue the medication and restart the cycle count. Day 1 is defined as the first day of menstrual bleeding.
Purpose: Provides luteal phase support, promotes restful sleep, and protects the endometrium during systemic estrogen therapy.
Dispense: 3-month supply.

Pharmacological and safety review only.
